

International Society
of Biomechanics

Developing Countries Grant Competition – DCGC 2019

Purpose:

DCGC 2019 will award five projects from EDC groups in biomechanics with the purpose to incentive innovative and collaborative activities to develop biomechanics in EDC regions.

Who can apply?

Any biomechanics researcher from an EDC country is eligible to apply. The application can include members not originated from EDC countries in the team. The coordinator of the proposal should be from an EDC country and a current financial member of International Society of Biomechanics. The proposal should be developed in an EDC region.

How to apply?

You must submit your application by email to Felipe Carpes at carpes@unipampa.edu.br according to the grant guidelines and the proposal template.

Grant assessment:

Grant assessment will be performed in two phases. On the first phase, applications will be assessed based in the writing proposal. A committee will define which applications are eligible for oral presentation at the DCGC 2019 during the XXVII Congress of the International Society of Biomechanics (ISB2019). The event will happen on August 1st, 2019, 1:00AM – 2:00PM.

Grants to be awarded:

1st place: USD 1000 (supported by International Society of Biomechanics)

2nd place: USD 700 (supported by Tekscan Inc.)

3rd place: USD 400 (supported by Vicon Motion Systems)

4th place: USD 300 (supported by International Society of Biomechanics)

5th place: USD 300 (supported by International Society of Biomechanics)

Deadlines:

Application opens on March 1st 2019 and closes on March 30th 2019. Applicants are encouraged to seek support from the ISB EDC officer Felipe Carpes during the preparation of the proposal.

Additional info:

Grant applicants recommended for oral presentation will receive orientations regarding the preparation of the presentations.
